

A3 representation transfer

Nominal source rankings change across consuming retrievers; absolute target bands remain distinct.

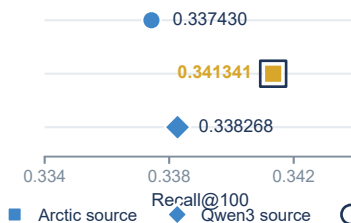

PatEmbed target

within-target range 0.000838

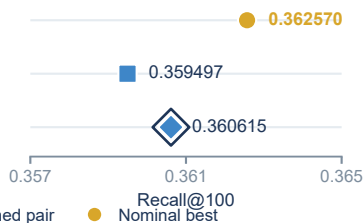

Arctic target

within-target range 0.003911

Qwen3 target

within-target range 0.003073

Local target axes support within-target reading; direct labels and ranges prevent effect-size overstatement. Descriptive development evidence.
